

Please consider adding more information regarding The Korean War in the section on the Cold War (line 977-979 – Grade 10) and include examples of Latin American countries impacted during the cold war, such as Nicaragua. In grade 11, there is little or no information on the Korean War, other than, line 878-879: “Eisenhower’s conclusion of the Korean War” and references some memoirs (lines 894-899).

Mention of the Korean War is important in light of the conflict that still exists between the U.S.A and North Korea.

Thank you,

Ana Luna
